Be Vigilant!

Never leave valuables in plain sight and always lock your vehicle. If you see any suspicious behavior Call SAPD at 210-207-7273 and let the Leasing Office know. Thank you.

Don't let the Bed Bugs Bite													
Prevention is essential to avoiding a bed bug infestation in your home. Even the cleanest houses, hotels or apartments can get bed begs, but													
regular inspection and cleaning can help you prevent an infestation.													
I. Learn to identify bed bugs:													
If you find any bedbugs kill them immediately. They are small (size of an apple seed) and oval with wingless bodies that are reddish- brown in color.													
2. Get rid of places where bed bugs can hide:													
Bed bugs love to hid in cluttered areas.													
 3. Be careful about what you bring into your home: Don't bring mattresses, couches, or box springs you find on the street or in and around the dumpsters, into your home. 4. Check your home regularly for bed bugs: Check behind picture frames, curtains and in beds (mattress and box springs) bedframes, headboards and nightstands. Couches and upholstered furniture. Around doorframes and window sills and behind baseboards. Check areas where your pets sleep too. 													
							 If you see something report it immediately to the Leasing Office: Waiting to call pest control will only make the infestation worse. 						
							vvalting to	call pest control will d	only make the infes	tation worse.
